SEED

We should like to build up our long history while stacking up each product like a pyramid that is made of bricks or stones neatly, carefully piled up one by one ...

Since 1915 we have produced over 2.5 billion pieces of plastic erasers. In the past, at present and in the future, we always strive to provide high quality, innovative products that will meet with all our customers' needs.

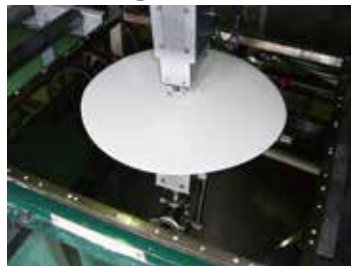

That is our commitment and goal.

1915

Today

SEED VIETNAM CO., LTD.

Affiliated Company:	SEED VIETNAM CO., LTD.
Established:	2003
Location:	B-3b, Thang Long Industrial Park, Dong Anh Dist., Hanoi, Vietnam
No. of employees:	70

ABOUT SEED:

The year was 1915. In Osaka, SEED Co., Ltd. was established to manufacture and distribute to the world the erasers made from rubber.

Later in 1956 SEED was the first company to start producing erasers made from plastic – mainly from PVC, later polysulfide rubber, synthetic rubber, elastomer, and other compounds. Our well-known “Radar” Plastic Eraser sold over the past 50 years or more still remains the hallmark of our company as well as in the industry of plastic erasers.

In 1983 SEED invented the correction tape mechanism, applying for its patent and patented it in 1984. We are virtually proud of the pioneer of correction tapes that are one of the best- and longtime seller stationery and office products worldwide.

In 2002 SEED established his own factory in Hanoi-Vietnam to produce and export high quality products made under so rigid Japanese QC system at competitive prices to Japan and other countries.

Our most serious goal is to manufacture and provide all the things to erase to meet with consumers’ erasing needs. SEED is also dedicated to working with the environment by recycled products or environmentally-friendly products.

In recent time SEED is also totally committed to manufacturing other plastic products for hobby/craft market and home use as well. At SEED we guarantee you your total satisfaction.

OUR LONG HISTORY:

1915: The former company - Miki Kosaku Rubber Mfg. Co., Ltd. started up business.

1945: SEED started producing plastic erasers in addition to rubber erasers.

1968: Started producing “Radar” plastic erasers.

1977: Started producing Scented Rubber Clays.

Rubber Clay
scented with cola

1982: Started producing fancy, decorative erasers

In the same year our former President Mr. Shigeru Tamai invented the correction tape mechanism and patented it. Later the product virtually became an alternative to correction fluid.

Rubber & Plastic Erasers produced in 1950s

Miki Kosaku Rubber Mfg. Co., Ltd.
established in 1915

prototype of the first
correction tape at that time

Fancy, decorative erasers

1984: SEED was officially approved and certified to be the factory to meet with JIS/Japan Industrial Standards. 

1997: Started producing one of the eco- and human-friendly products - recycled erasers, non-PVC erasers as well as PVC erasers but phthalate-free.

※Originally scallop shell fine power

PVC-free

1998: SEED was officially certified according to **ISO 9001** (Quality Management System) and **ISO 14001** (Environmental Management System) in 1999 .

2003: SEED VIETNAM CO., LTD. was established.

2006: SEED started producing carving blocks made from PVC and Animal Balance Game Erasers (non-PVC) excellent for hobby/craft markets.

2015: SEED celebrated its 100th anniversary and enjoyed the anniversary event in Okinawa.

2018: To celebrate the 50th anniversary of our “Radar” Plastic Erasers production and market launch, we produced the limited edition products, such as 50-color sleeves erasers.

2019: SEED developed unique, innovative transparent - “Clear Radar” Plastic Erasers.

2020: In addition SEED developed ingenious color-changing - “SUN Radar” Plastic Erasers.

2021: SEED developed PVC-free Twist-style Erasers.

 Packed: 6 pieces per per outer carton

S-60

The largest size eraser in the world is available from SEED.
Large-size Erasers are great for gift, premium, personal collection and in-store display.

COLOR-CHANGING PLASTIC ERASER

Eraser colors will change when exposed to the sunlight and UV black light from pink to violet, light-green to blue, light-blue to green and return to the original colors in the shade instantly.

With a piece of eraser enjoy two different eraser colors in the sunlight and shade.

Unique Selling Points

- * The eraser is made from translucent PVC including phthalate-free plasticizer.
- * The color will change with sunlight or UV black light (*Color-changing degree will be greatly affected by the weather, season etc. and vary).
- * The unbreakable eraser will work well to cleanly remove graphite marks with ease.
- * If the eraser would be exposed to the direct sunlight for a long time, it may deteriorate. After each use make sure to store the eraser while avoiding a direct sunlight

Color-changing degree <Example: EP-SN-PV>

Colored Pencil Erasers

Best for delicate coloring!!

These days the coloring is well getting popular mainly among adult women as it will help them out to comfort and release their stress. Best of all, the coloring or so-called in French, "Coloriage" on artistically beautiful pattern is widely catching on.

"Coloriage" features extra-delicate pattern excellent in design such as plants, mosaic and animals and sophisticated painting including color coding will affect a lot how well the art will be finished.

Plastic Eraser For Color Pencils

Stick type - great for erasing on narrow areas

EP-CP1

Paper Sleeve

EP-CP1:

Harder PVC eraser perfect for pinpoint erasing.

Product size: L74 x W12 x H12mm / Weight: 12 grams

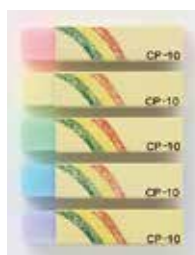

Packing: 20 pieces per inner display box / 600 pieces per outer carton

Plastic Eraser For Color & Black Pencils

Ideal for color pencils, B to 6B black graphite pencils

CP-10

- Pastel-pink
- Pastel-yellow

Plastic Eraser For Color Pencils

Best for color pencils

EP-CPG-100

EP-CPG-100:

PVC eraser excellent for color pencils. Effortlessly erases delicate surfaces. Available in fluorescent-yellow. Product size: L70 x W15 x H15mm / Weight: 16.7 grams Packed 20 pieces per inner display box / 600 pieces per outer carton

CP-10:

Extra-cohesive PVC eraser excellent for color pencils and B to 6B black graphie pencils.

First, try to rub gently with less force, then increase the force gradually to erase.

Available in 5 soothing, soft pastel colors - pink, yellow, green, blue and violet.

Product size: L70 x W15 x H15mm / Weight: 16.7 grams

Packed 20 pieces per inner display box / 600 pieces per outer carton

EK-NK1

Kneadable Rubber Eraser

EK-NK1:

Normal-type, synthetic rubber eraser. Perfect for rough drawing, sketching to use with pencil and charcoal.

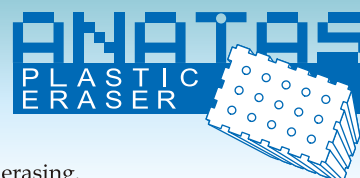

Product size: L65 x W35 x H12mm. Weight: 23 grams

Packing: 20 pieces per inner display box / 600 pieces per outer carton

"ANATAS" Plastic Eraser

A fun plastic eraser that features special construction - 15 holes and 20 uneven grooves.

The holes give the eraser a nice grip and provide additional edges for precision correcting as it wears down. The corrugated grooves enable the eraser to firmly attach to the paper surface and offers light-touch erasing.

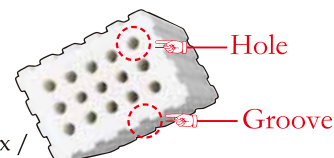

-Evolved, selective eraser-
15 holes + 20 uneven grooves

EP-AT1

Product size: L50 x W16 x H25mm

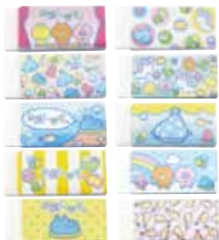

Product weight: 22g

Packed: 20 pieces per inner display box / 600 pieces per outer carton

消しゴムですぐに消せちゃえそんなゆる～いキャラクター

**KNEAD, RUB, TWIST,
STRETCH IT OR ENJOY
ITS SWEET SCENT!!**

Children in school get frustrated but our SEED Rubber Clays may help them stress out and calm down with ease. Colored, scented rubber clay is one of the children's favorite toys, children can produce a variety of toys. Developing children's imagination and ability. Can be repeated use.

SEED "Horunavi" Easy-to-carve Stamping Block Sets

"Horunavi" is the newly coined term combining the Japanese word "Horu" (meaning "carve") with "Navi" (shortened form of navigation). Stamping block made from PVC same as plastic eraser designed to cut with ease.

Easy to know where you cut owing to double-layer construction - two-tone colored top + base. For hobby, art & craft.

Unique Selling Point!!

Be sure to wipe the surface of the eraser block before you begin

Place tracing paper over your design and trace around it with a pencil

Flip the tracing paper over and place it on the eraser block then transfer your design by rubbing over it

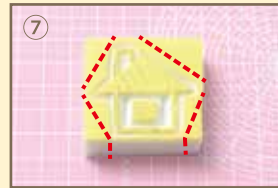

Next, using a cutter, cut off a section of the eraser block around your design leaving enough space to for easy carving

While placing a cutter point with a 45-degree angle or so, try to cut it outside following the outlined design

Place a cutter point at a slant from a little bit outside of the outlined design to the inside

Then with an art knife or a cutter, carefully begin carving along the lines that you traced

Next trim and remove unnecessary parts with a cutter while inserting the cutter blade from outside horizontally

Pull into shape

Use the yellow kneaded eraser to remove the shavings and dust off the surface of your design

Ink the finished stamp

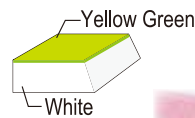

Stamp on the check book to learn whether any unfinished part is left or not

ICE CREAM
アイスクリーム

Set includes:

- 7 colorful plastic clays (1 each in Brown, Lt.-Blue, Pink, Yellow & Clear / 2 in White)
- Instruction of how to make

=How To Use=

1. Prepare hot water 80° (=176° F) in a heat-resistant container.
2. Carefully place clay in hot water for 2-3 minutes until it is softened.
3. When clay is softened, remove it from the hot water using chopsticks.
4. While the clay is still warm, create your design.
5. If your clay becomes hard while you are still working on your piece, you can put it back into your hot water to soften it again.
6. When using a mold, be sure to firmly press your clay into the mold to cover every part of it.
7. When your design is complete, put your clay in cold water to harden.
8. Make sure that your clay piece is completely cooled before removing it from the mold.
