SEED

PRODUCTS CATALOG

We should like to build up our long history while stacking up each product like a pyramid that is made of bricks or stones neatly, carefully piled up one by one ...

Since 1915 we have produced over 2.7 billion pieces of plastic erasers. In the past, at present and in the future, we always strive to provide high quality, innovative products that will meet with all our customers' needs.

That is our commitment and goal.

1915

Today ❖ Osaka headquarters & factory

❖ SEED Vietnam Factory

ABOUT SEED:

The year was 1915. In Osaka-Japan, SEED CO., LTD. was established to manufacture and distribute to the world the erasers made from rubber.

As early as 1956, SEED was a pioneer in producing erasers made from plastics – mainly from PVC, later polysulfide rubber, synthetic rubber, elastomer, and other compounds. Our well-known **“Radar”** Plastic Erasers sold over the past 58 years still remain the hallmark of our company as well as in the industry of plastic erasers.

In 1983 SEED invented the correction tape mechanism, having applied for its patent and patented it in 1984. We are virtually proud of the pioneer of correction tapes that are one of the best- and longtime seller stationery and office products worldwide.

In 2002 SEED established their own factory in Hanoi-Vietnam to produce and export high quality products made under so rigid Japanese QC system at competitive prices to Japan and other countries.

Our most serious goal is to manufacture and provide all the things related to erasing and meet with consumers’ erasing needs. SEED is also dedicated to working with the environment by recycled or environmentally-friendly products.

In recent time SEED is also totally committed to manufacturing other plastic products for hobby/craft market and home use as well. At SEED we guarantee you your total satisfaction.

OUR LONG HISTORY:

1915: The former company - Miki Kosaku Rubber Mfg. Co., Ltd. started up business.

1945: Started producing plastic erasers in addition to rubber erasers.

1968: **“Radar”** plastic erasers launched.

1977: Scented Rubber Clays produced.

1982: Started producing fancy, decorative erasers.

In the same year our former President Mr. Shigeru Tamai invented the correction tape mechanism and patented it. Later the product virtually became an alternative to correction fluid.

Rubber Clay scented with cola

Rubber & Plastic Erasers produced in 1950s

Miki Kosaku Rubber Mfg. Co., Ltd. established in 1915

prototype of the first correction tape at that time

Fancy, decorative erasers

1984: Officially approved and certified to be the factory to meet with JIS/Japan Industrial Standards. 

1997: Started producing one of the eco- and human-friendly products - recycled erasers, non-PVC erasers as well as PVC erasers but phthalate-free.

※Originally scallop shell fine power

PVC-free

1998: Officially certified according to ISO 9001 (Quality Management System) and ISO 14001 (Environmental Management System) in 1999 .

2002: SEED VIETNAM CO., LTD. established.

2006: Started producing carving blocks made from PVC and Animal Balance Game Erasers (non-PVC) excellent for hobby/craft markets.

2015: Celebrated its 100th anniversary and enjoyed the anniversary Event in Okinawa.

2018: To celebrate the 50th anniversary of our **“Radar”** Plastic Erasers production and market launch, produced the limited edition products, such as 50-color sleeves erasers.

2019: Developed unique, innovative transparent - **“Clear Radar”** Plastic Erasers.

2020: In addition launched ingenious color-changing - **“SUN Radar”** Plastic Erasers.

2021: Developed PVC-free Twist-style Erasers.

2022: Launched phthalate-free, latex-free **“PUSHU-KESHI”** Easy-to-push and advance Erasers and economical, easy-to-use, solvent-free CE-Series Cleaning Erasers ideal for home use.

2023: Moved the headquarters + plant to 3-2-17,Katsube, Toyonaka-City, Osaka Pref., Japan.

2024: Developed **“Clear Radar”** Plastic Eraser Color Edition.

2025: Launched **“Kadolloop”** Plastic Eraser To Restore Straight-corner.

Radars

Effortless plus residue-free
Flexible body resists high pressure
Sturdy, unbreakable special material

Extra-light-touch, non-abrasive PVC eraser for pencil. One key feature of the compound micro-powder formula is that eraser shavings clump together instead of turning into messy dust.
Erases the wrong words or lines easily and cleanly without tearing paper, removes pencil marks effortlessly.
Ideal for office workers, school children and professional artists alike.
Perfect for offices, classrooms, or home use. Corner cut sleeve. PP wrap with perforated lines.

Cherry tree used for the paper sleeve

桜の木 Radar

Sakura, also known as cherry blossoms, is one of the national symbolic flowers of Japan.

One of the main themes associated with sakura is the idea of impermanence.
The blossoms only last for a short period, usually around two weeks, before they begin to fall off the trees.
This fleeting beauty is a reminder that life is short and we should cherish every moment.

The Japanese fiscal and school year begins in April, the season of sakura.
We feel like the fully bloomed cherry blossoms are celebrating and welcoming our brand-new start.

TOUCH Radar

This Japanese-made black eraser, made with special materials works as a touchscreen stylus for smartphones, tablets and more. It also removes graphite from paper thoroughly.

This dual-role player eraser belongs to both digital and analog stationery. Easy-to-handle rounded tip. Stored into pencil case, tablet bag. Corner-cut sleeve to absorb user's erasing pressure and prevent breakages, nicks and wastes.

Pencil marks won't show up on black eraser. Easy-to find and remove black eraser residues on white paper. Phthalate-free, latex-free.

ERASER: MADE IN JAPAN patent pending

“TOUCH Radar” Plastic Eraser EP-TR

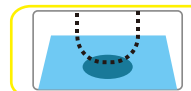

Eraser size: L74 x W12 x H12mm (12g)
 OPP-pouch size: W71 x D14 x H150mm (14g)
 Packing: Each eraser packed in individual protective sleeve plus hanging OPP-pouch package, 60 inner boxes (=600 pieces) per outer carton

For Tablet

For Notebook

When using the product on the screens of smartphones or tablets, always keep the eraser tip rounded and hold it upright to ensure smooth operation.

《How To Use》

- The product can be used with capacitive touch-sensing smartphones and tablets. Do not use it on any other type of screen.
- When erasing on paper, some black marks may remain. They are not harmful and they are nothing to worry about. Since the residue will not smudge, gently erase again to remove.
- If the contact area of the eraser on screens is too small, or if it is covered by protector or LCD protective glass, the product may not work properly.
- To avoid any damage, scratches or breakage never apply with excessive force when using the product on screens.

Always keep the eraser tip rounded and hold it in a straight, upright position. Do not place the eraser at an angle.

Eraser representing Japan - “Radar” Series Eraser set listing 25 national flags

世界の国旗 Radar

The iconic Japanese “Radar” Eraser, our best-selling and longest-running product is now available with designs featuring 25 different national flags.

Complete your collection with these erasers for a cosy, homey atmosphere.

“Radar” Plastic Erasers For Primary School Students

“Radar” Plastic Erasers 2B 4B 6B

Specially designed for students to use with ease. Generally school children are likely to give more pressure than needed to the eraser but these erasers are not easy to break owing to special compounds used. Latex-free and phthalate-free.

Unique Selling Points
Space for naming:
 Specially-coated surface great for naming with pencil and water-based ink pen

2B

This eraser is suitable for 2B pencils commonly used by primary school students and is ideal for all grade levels.

 Packing: 20 pieces per inner display box, 600 pieces per outer carton

Radarknock Neoncolor

SEED "Radarknock" Mechanical Erasers are now available with transparent body in luminous phosphorescent colors designed after neon tube

"Radarknock" Neoncolor Mechanical Erasers

Phosphorescent Green
Phosphorescent Blue
Phosphorescent Pink

Convenient and long-lasting, this pen-style eraser is easy to use with one hand. Its push-button, non-slip clutch smoothly advances and retracts the eraser as needed. Ideal for draftsmen, students, accountants, secretaries, and anyone who writes with a pencil, it also makes a practical and refined gift for students and teachers at home or at school. Its stylish, compact design slips easily into pockets and pen cases. Each eraser includes one luminous, phosphorescent refill (5 mm in diameter x 90 mm in length) that absorbs light and then glows in the dark. For the best effect, place the eraser under a bright light source for a few minutes before use. The eraser is made from phthalate-free, latex-free PVC. The sturdy, transparent ABS barrel lets you see how much eraser remains, while the PP pocket clip keeps it from rolling away.

- EH-KNC-G Green** Eraser size: 5mm dia. x 90mm long
Product size/weight: W40 x D11 x H160mm (10g)
- EH-KNC-B Blue** Barrel size/weight: 10.5mm dia. x 122mm long (9.3g)
Packing: Each packed in hanging OPP-pouch package, 10 pieces/inner box, 500 pieces/outer carton
- EH-KNC-P Pink**

Product weight: 8 grams
Packing: Each pack of 3 erasers/hanging OPP-pouch, 10 packs/inner box, 500 packs/outer carton

HYPER Gold Quality Plastic Eraser EP-M1

Rubbery yet soft, this light-touch premium eraser is made of synthetic rubber with rounded corners, helping you erase pencil marks without tearing the paper. It is phthalate-free and latex-free, in an ivory color. Extra durable for daily use and not easy to break, it complies with the European Toy Safety Standard EN71-3 Directive. The gold screen printing appears on both the individual eraser and the inner box. Each eraser is individually wrapped in cellophane and comes with a gold metallic sleeve. Perfect for gifts, premium items, and novelties.

Eraser size: W22 x D15 x H49.5mm (20.6g)
Product size: W37 x D19 x H67mm (27.6g)
Packing: 10 pieces/inner box, 300 pieces/outer carton

Plastic Sand Eraser EP-512

A renewed, contemporary-design eraser that replaces the ER-512N while partly retaining its conventional product image. This square-shaped PVC eraser has an extra-delicate abrasive touch and is designed to remove ballpoint pen ink, fountain pen ink, and typewritten marks. It is grey in color and made from latex- and phthalate-free PVC. The corner-cut sleeve absorbs erasing pressure to help prevent breakage and reduce waste.

Eraser size: L56 x W18 x H9mm (14.6g)
Product size: L90 x W10 x H33mm (15g)
Packing: Each per hanging OPP-pouch,
20 pieces/inner box, 800 pieces/outer carton

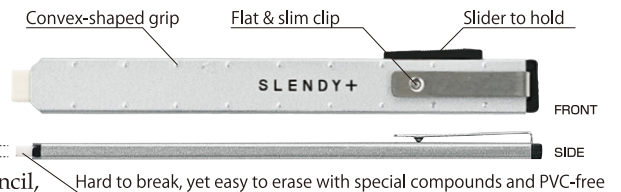

Thin steel holder type eraser

SLENDY+

Handy Pen-shaped PVC-free Erasers

Never-before-seen shape and thinness. It is not bulky even when kept in a notebook. Features a strong, slim metal holder. The slider and stopper let you advance the eraser like a mechanical pencil, keeping it neat and tidy. A durable, PVC-free eraser that is great for erasing narrow areas with ease.

“SLENDY PLUS 2” Pen-shaped Eraser EH-S-2-S Silver

Holder color: Silver
Eraser size: W10.5 x D3.2 x H98.5n (13g)
Product size: W37 x D7 x H125mm (14g)

For Colored Pencils

Colored Pencil Erasers

These days, coloring books are getting more and more popular, especially among adult women, because they help you relax and relieve stress. Adult coloring books, often referred to as "Coloriage" in French, are particularly appreciated for their highly artistic and beautiful designs.

"Coloriage" features extra-delicate, beautifully designed patterns such as plants, mosaics, and animals. Its sophisticated color-coding greatly influences how well the artwork is completed.

The SEED "Coloriage" eraser is specifically designed for use with color pencils and is ideal for delicate coloring-book art.

*Inner box of 20 erasers

"Coloriage-2" Colored Pencil Eraser EP-CPJ-2

Harder PVC eraser including abrasive agent perfect for pinpoint erasing

*Inner PET case for display
to store 20 clays

For what purposes are SEED Rubber Clays used;

**KNEAD, RUB, TWIST, AND STRETCH THEM TO RELAX
YOUR HANDS AND ENJOY THEIR SWEET SCENT.**

An innovative, one-of-a-kind eraser from SEED

Heat the eraser to restore its sharp, straight corners

"Kadoloop"

カド ルーア

Plastic Eraser To Restore Straight-corner

A fresh sharp eraser corner restored to cleanly erase mistakes

Ordinary erasers become blunt or rounded with use. SEED's "Kadoloop" eraser takes its name from "Kado," meaning "corner" in Japanese, and "loop" in English. It is specially designed so that, by heating it in hot water or with a hair dryer and using the attached PET plastic mold, you can repeatedly restore a sharp, straight corner. Once the sharp corner is restored, it is perfect for precise, narrow erasing. "Kadoloop" keeps your erasing experience feeling clean and refreshed. It is latex free and phthalate free, ideal for students, artists, painters, office staff, engineers, teachers, and children.

"Kadoloop" Plastic Eraser To Restore Straight-corner EP-LP1

Eraser size: L55.5 x W20.3 x H11.2mm (15g)

Product size: W82 x D14 x H140mm (23g)

Eraser: Made of TPE/Thermo Plastic Elastomer

Includes: PET plastic mold + Instruction of how to remove and wrap adhesive paper sleeve

Packing: Each wrapped with protective paper sleeve plus packed in hanging card, 12 pieces per inner POP display box, 240 pieces per outer carton

*POP display box to store 12 erasers

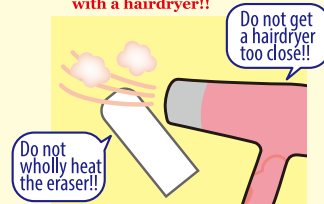

① First, place the product on a flat and stable surface, then remove the individual protective paper sleeve before heating.

② Heat the eraser with a blunt or rounded end with hot water.

※ Alternatively heat the eraser with a hairdryer!!

Do not wholly heat the eraser!!

Do not get a hairdryer too close!!

Peel off the individual protective paper sleeve and apply hot air to the blunt or rounded eraser. Once it softens, attach the PET plastic mold to restore the eraser's sharp corners.

③ Restore the eraser's edges using the attached PET plastic mold.

Push the softened part of the eraser into the attached PET plastic mold, then press it from all sides as shown in the figure above.

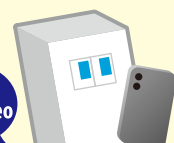

When the eraser has cooled down, it is ready to use.

Wrap the individual protective paper sleeve

Firmly shape the eraser using the PET plastic mold. When it has cooled down, it is complete.

For more details check out the video

⚠ CAUTIONS & WARNINGS

- Choking hazard: Do not put it in your mouth, as you may accidentally swallow it. Also, keep it away from children under 3 years old.
- Be careful not to burn yourself when heating. Ask an adult for help.
- The time it takes for the eraser to soften may vary depending on the environment.
- Be careful not to get the softened eraser on your clothes or in your hair.
- When storing the product, avoid direct sunlight, high temperatures, and humidity.
- Follow these instructions and do not use the eraser for any other purpose.

Knead-into-eraser Dust3

Eraser residue can be kneaded

5 colors x 4 each

1705AB
Specially treated eraser residue can be kneaded, stretched, and shaped just for fun. PVC-free, phthalate-free, and latex-free.

Product size: L55 x W24 x H13mm(20.5 g)
Packing: 24 pieces (=12 kinds x 2 each) per inner PET case, 720 pieces per outer carton.

Eraser Stamp

“Horunavi” Easy-to-carve Stamping Block Sets

“Horunavi” is a newly coined term that combines the Japanese word “horu” (meaning “to carve”) with “navi” (short for “navigation”). This stamp carving block is made of PVC, the same material as a plastic eraser, and is designed to be easy to cut. Thanks to its double-layer, two-tone construction, it is easy to see where you are carving. Ideal for hobby use, art projects, and crafts.

Before you begin make sure to wipe the surface of the eraser block with a kneaded eraser

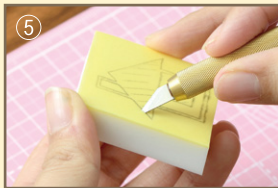

Lay the tracing paper over your design and trace around it with a pencil

Flip the tracing paper over and place it on the eraser block then transfer your design by rubbing over it

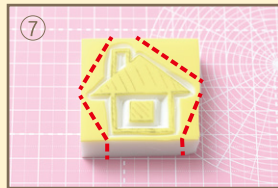

Next, use a cutter knife to cut around the design to a size that is easy to carve

While placing a cutter point with a 45-degree angle or so, try to cut it outside following the outlined design

Place a cutter point at a slant from a little bit outside of the outlined design to the inside

Then with an art knife or a cutter, carefully begin carving along the lines that you traced

Next, trim and remove unnecessary parts with a cutter while inserting the cutter blade from outside horizontally

Adjust the shape

Use the yellow cleaning kneaded eraser to remove any graphite shavings and dust off the surface

Ink the finished stamp

Try stamping on any paper to learn whether any unfinished part is left over or not

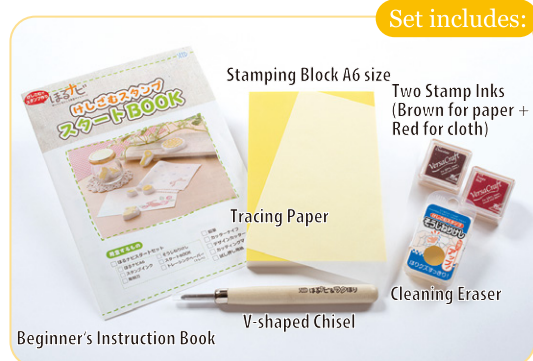

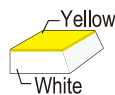

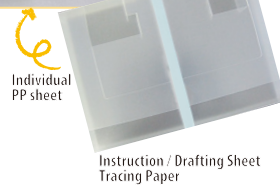

Set includes:

Deluxe Stamping Block Set3 KH-HND-3

■Set includes:
Stamping Block A6 size (148 x 100mm), Art Knife, Cutting Mat A5 size, Stamp Ink, Cleaning Kneaded Eraser, Mini Stamping Blocks, Storage Case, Tracing Paper, Draft Sheet

<Design Paper>

“CLEAR HORUNAVI” Easy-to-carve Stamping Block

“Clear Horunavi” Stamping Blocks are translucent eraser blocks that become more transparent and resistant to cracking when heated in a temperature-controlled oven after carving. Unlike the conventional white “Horunavi” Eraser Block, the cutting edge can be seen through the translucent material, so you can clearly see where you are carving.

●Instruction guide with design paper & tracing paper

Will completely remove crumbs from a block eraser

Cleaning Kneaded Stamp Erasers

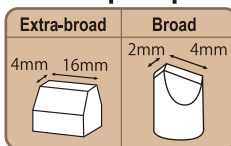

“Horunavi” Pen-style Stamp Cleaner
 ◎Extra-broad Tip

KH-CS-GF
 Body size: Ø28 mm x H155 mm (48 g)
 Product size: W65 x D30 x H220 mm (54 g)
 Packing: Each item packed in hanging OPP pouch, 5 pieces per inner box, 100 pieces per outer carton

Easy to use - shake well, remove the cap, then apply the pen tip across the stamp block.
 Convenient 16 mm width x 4 mm depth tip ideal for cleaning wide stamp area.
 Large capacity for heavy use.
 Ingredient: Diethylene Glycol Monobutyl Ether or “Butyl Carbitol”

Pen Tip Shape

Diethylene Glycol Monobutyl Ether or **Butyl Carbitol**

- Plastic barrel made from PP
- Pen tip made from Polyester

CAUTIONS

- Wipe off immediately after use and do not leave it unattended.
- Using it on a deteriorated stamp may cause the stamp surface to soften.
- Other ink printed on an eraser stamp may peel off.
- Because it contains solvents, ensure adequate ventilation and avoid inhaling the vapors.
- Do not use near open flames.

Fire Service Act Hazardous Material: Third Petroleum Class - Water-soluble

- Product size: W80 x D13 x H121mm (30g)
- Packing: Each packed in individual sleeve + hanging card, 6 pieces/inner box, 120 pieces/outer carton

Cleaning Eraser For Wall Stains H-CE-KB

- Perfect for erasing unwanted scribbling, yellow staining from dirty hands
- Moderate adhesion and resiliency will not deface wall surface
- Eraser shavings will not leave nor scatter after rubbing
- Directly rub wall stains with the cleaning eraser just as using a pencil eraser
- Used for dirty walls and wall paper fabric
- Made from synthetic rubber

Cleaning Eraser For Water Stains H-CE-MZ

- Great for removing scale on wash bowls, bathtubs, and mirrors
- Ideal for tough water stains in wet areas
- Contains "Shirasu", a light grey volcanic ash that is gentle on surfaces
- Eraser shavings will not scatter or stick after use
- Made from TPE thermoplastic elastomer and "Shirasu"

Cleaning Eraser For Board Stains H-CE-WB

- Best for cleaning whiteboards and blackboards
- Contains a special abrasive formula that will not damage board surfaces
- Solvent-free; unlike typical solvent cleaners, the eraser will not produce any pungent smell
- The eraser makes residues dump together for easy removal
- Eraser shavings will not scatter or stick after rubbing
- Made from PVC

Cleaning Eraser For Sneaker Stains H-CE-SN

- Excellent for cleaning stains on synthetic leather uppers and rubber or resin soles of sneakers
- Compact size and easy to carry. Fits into a handbag, tote bag, or backpack
- Simply rub sneaker stains with the cleaning eraser, just like using a pencil eraser
- Made from PVC

Cleaning Eraser For Indoor Shoe Stains H-CE-UB

- Ideal for cleaning indoor shoes that cannot be washed well with detergent
- Rub stains with the cleaning eraser, just like using a pencil eraser
- Compact size and easy to carry. Fits into a handbag, tote bag, or backpack
- "Shirasu" – a type of light grey volcanic ash – will not damage the surface
- Made from TPE thermoplastic elastomer and "Shirasu"

Cleaning Eraser For Adhesive Residue H-CE-SH

- Solvent-free; unlike typical solvent cleaners, the eraser will not produce any pungent smell
- Simply rub adhesive surfaces with the cleaning eraser, just like using a pencil eraser
- Ideal for removing sticky adhesives and residues
- Made from PVC and filler

Eye-catching, ready-to-use hanging-type countertop display available

Correction Tape Remover EP-ST-2

Ideal for removing correction tapes even in narrow areas, without damaging the writing underneath. Erase it gently, just like a regular eraser without applying force

Eraser size: W18 x D8 x H65 mm
Product size: W45 x D8.5 x H125 mm / 15.3 g
Packing: Each packed in hanging OPP pouch, 10 pieces/inner box, 400 pieces/outer carton

Adhesive Label Removing Eraser SMG-OK-SH1

Adhesive labels become harder to remove over time. Includes an eraser and an extra-hard PVC scraper. Easy two-step use: first scrape adhesive labels with the scraper, then remove residue with the eraser like a pencil eraser. Unlike typical solvent cleaners, the eraser does not produce any pungent smell. Residue clumps together for easier removal.

Eraser size: W78 x D11 x H23 mm / 20.6 g
Product size: W80 x D13 x H121 mm / 26.4 g
Packing: Each packed in individual sleeve + hanging card, 6 pcs/inner box, 120 pcs/outer carton

The erasers fit the stamp faces well and can be kneaded and reused

Made by a leading plastic eraser manufacturer:
CE-Series Kneaded Cleaning Eraser

Ideal for cleaning name seal

Great for daily quick-cleaning

Made by a leading plastic eraser manufacturer:
CE-Series Kneaded Cleaning Eraser

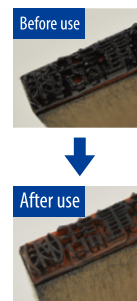

Best for cleaning rubber stamp

Great for daily quick-cleaning
